

Multiplier Valves

S.167782
 FÄSSE- Remote Master Multiplier, Doubler Valve. Save the expense of an OE dual remote valve. Converts a tractor from a single remote to a dual set of remote couplers with it's solenoid valves and the control switch box.

S.167785
 FÄSSE- Remote Master Multiplier, Double Valve, with Remote Command Stik (RCS) joystick. Controls 2 hydraulic circuits. Converts a tractor from a single remote to a dual set of remote.

S.167783
 FÄSSE- Remote StakMaster Multiplier, Tripler Valve. Converts a tractor from a single remote to a three bank set of remote couplers with it's solenoid valves and the control switch box.

S.167786
 FÄSSE- Remote StakMaster Multiplier, Tripler Valve, with Remote Command Stik (RCS) to control 3 circuits. Converts a tractor from a single remote to a 3 bank set of remote couplers.

S.167784
 FÄSSE- Remote Master Multiplier, Quad Valve Kit. Converts a tractor from a single remote to a 4 bank set of remote couplers with it's solenoid valves and the control switch box.

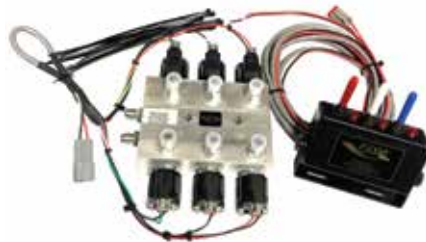

S.167787
 FÄSSE- Remote StakMaster Multiplier, Quad Valve Kit Remote Command Stik (RCS) to control 4 circuits. The valve converts a tractor from a single remote to a 4 bank set of remote couplers.

S.167790
 FÄSSE- Bear Valve Series Kit, Is a "Load Holding" Dual Poppet Valves for holding cylinders in mid-stroke position. Two Circuit Hydraulic Multiplier. *Must be used with tractor remote outlet.

Complete Hydraulic Valve System for Sprayers

S.167804
 FÄSSE- SprayMaster3, Designed with "Load Holding" Poppet Valves for holding cylinders in mid-stroke position. Three Circuit Multiplier with switchbox control. *Must be used with tractor remote outlet. Common Application: Field Sprayer

S.167805
 FÄSSE- SprayMaster3, Designed with "Load Holding" Poppet Valves for holding cylinders in mid-stroke position. Three Circuit Multiplier, with the popular Remote Command Stik, joystick controller. *Must be used with tractor remote outlet. Common Application: Field Sprayer

Complete Hydraulic Valve System for Sprayers

S.167806

FÄSSE- SprayMaster4, Designed with "Load Holding" Poppet Valves for holding cylinders in mid-stroke position. Four Circuit Multiplier with switchbox control. *Must be used with tractor remote outlet. Common Application: Field Sprayer

S.167807

FÄSSE- SprayMaster4, Designed with "Load Holding" Poppet Valves for holding cylinders in mid-stroke position. Four Circuit Multiplier, with the popular Remote Command Stik, joystick controller. *Must be used with tractor remote outlet.

Power Splitter - 3rd Function

S.167789

FÄSSE- Power Splitter Selector Valve. Use to operate loader "Third Function". The valve controls 2 circuits from one tractor remote outlet. Circuit one in normally live while circuit two is activate momentarily.

Implement Mounted Multiplier Valve

S.167791

FÄSSE- EconoMaster, Hydraulic Double Multiplier Valve. Implement mounted. 2 circuit hydraulic selector valve. *Must be plumbed to tractor remote outlet.

S.167792

FÄSSE- EconoMaster 3, Hydraulic Triple Multiplier Valve. Implement mounted. 3 circuit hydraulic selector valve. *Must be plumbed to tractor remote outlet.

John Deere

S.167796

FÄSSE- John Deere Remote Coupler to ISO Conversion Kit. Solves remote leakage on Deere 20, 30, & 40 Series Tractors ('64-1982). Updating tractor to a Push/Pull connect ability under pressure, without the use of lever locks.

S.167788

FÄSSE- Remote Master Multiplier Valve. For earlier John Deere tractors with "cone style" couplers and tips. The Kit converts a tractor from a single remote to a dual set.

Components

S.167793

FÄSSE- Remote Command Stik. Joystick Control of hydraulic functions thru the use of the ergonomic design and intuitive buttons for repetitive tasks.

S.167794

FÄSSE- Electric Switchbox for Hydraulic Multiplier Valves, 2 circuit.

S.167795

FÄSSE- Electric Switchbox for Hydraulic Multiplier Valves, 3 circuit.

S.167797

FÄSSE- Switch Assy. - Power Splitter, Momentary Switch

S.167798

FÄSSE- Double Elbow Fitting Kit. For connection of Fasse Multiplier Valve on a tractor with wider center to center remote outlets.

S.167799

FÄSSE- Eccentric Fitting, *Single fitting with offset.

S.167802

FÄSSE- ISO Poppet Female Coupler.
