

Bulb Retaining Clips for Headlights S.22340

CLIP INSTRUCTIONS

Place ring face down. Center bulb in ring. Install clips with center of clip against bulb and ends of clip in ring. It may be necessary to bend clip ends a little to adjust for snug fit.

WORKLIGHT ONLY

Install switch in bucket. Thread hot wire through mount bolt. Push wire ends into switch. Use a little grease on wire ends for easy assembly. Install bulb ring assembly onto bucket with 2 pan head screws. Place mount socket or wing mount onto mount bolt.
